Indian School Of Media was founded by IIT-IIM Ahmedabad alumni in the year 2011 under the auspices of *St. Xavier's College, Mumbai (Mahim)* with a sole vision to empower youngsters who wish to build careers in the field of Media and Event Management.

The Indian Media and Entertainment industry has gone through quite a metamorphosis over the past couple of years. The golden age of content and digital entertainment has necessitated the demand for a skilled workforce. Pegged as the sunrise sector, the media and entertainment sector has been projected to grow at a rate of 12% between 2020 and 2022. With the requirement of over thirty lakh professionals during this period alone, India is on the cusp of a whole new renaissance; torchbearers of which are disproportionately going to rise from the M & E space. ISM aims to bridge the gap between academia and the industry by providing the relevant vocational education, making candidates effective on the job from day one.

Testimonials

“

ISM has played a crucial role in my growth as a student on many fronts. The staff was ever so accommodative of my career as an actress and seamlessly facilitated me with the flexibility and leeway to continue pursuing my acting career while studying at the same time. In fact, I still remember when I was shooting for a movie called 'Powercut', they so obligingly allowed me to join a special batch of students who had missed out on the lectures. Even when I had met with a horrible road accident which took my father-in-law Jaspal Bhatt's life, ISM supported me in every possible way. I'll always be grateful to ISM for being my pillar of strength and support in the hardest of times.

Coming from a non media background ISM really paved a way for me to enter the Media industry through my campus placement at EsselVision. The education imparted and the experience I gained at ISM not only helped me achieve my career goal but also thoroughly prepared me for it. I'm grateful to ISM for making my dreams come true and being the stepping stone to my success.

“As said by Nelson Mandela, “The function of education is to teach one to think intensively and to think critically. Intelligence plus character- that is the goal of true education.” This is exactly what Indian School of Media is all about. ISM teaches you not only the current trends and insights of the media and entertainment ecosystem, but it leads you to the path of rational and practical thinking and decision making. The best thing is that, ISM does not spoon feed, but helps turn mirrors into windows. ISM is not just an educational institute; it's your best friend who holds your hand throughout your journey. ISM has been a life changer for me. The immense interest that everyone at ISM shows in its student's growth and success is amazing. But also, it is vital for all the students to keep in mind, “Teachers open the door, but you must enter by yourself.” Words are just not enough to describe 'MRS. NATASHA ARANHA' who shares a vision to enlighten the media and entertainment space with bright minds and any initiative coming from an angel like her, will always yield growth and success for anyone and everyone who is a part of her journey. ISM is not just 'Indian School of Media', it is 'Inspiration for Successful Mentality!'”

Amidst a variety of enlightening lectures at ISM, I learnt a lot about the industry but the day I found my calling, I still remember, was when I had attended the lecture on Direction. I had worked at Amir Khan Productions as an Assistant Director before. ISM faculty member and Ace Director/Producer Vaibhav Modi, who went on to become my mentor, took me under his wings and that marked a career-defining time because later I joined his production house Victor Tango Entertainment PVT LTD in September 2018. I currently work as an in-house Assistant Director. Unlike most production houses, Victor Tango allows you to grow and learn and share ideas and lets you understand other departments in a production company. Vaibhav sir is a great mentor and boss to me. Here, I've learnt that even after planning the perfect schedule, you are sometimes challenged on set with so many obstacles. It's in times like these that I learnt to have a plan and work together to achieve my goal. Now, a year later, that once clueless boy, has completed 3 projects with Victor Tango (2 fiction, 1 non-fiction) and is even more confident at what he does. I can't thank ISM enough for helping me realise my calling.

Very early on, I had an inclination towards entrepreneurship but never had any specialised training. I had somewhere kept my long-standing dream alive through my business. I nurture it everyday and put in the same amount of blood, sweat and tears as I do at my workplace. Through ISM, I learnt the finer points of Media and Event Management that continued to help me notch up my business strategies and improve the overall outlook. Courtesy of ISM, I can efficiently network, make educated decisions and ask the right questions; qualities which were perhaps absent in the times before. My training in various disciplines, practical exposure, internships and job opportunities provided by ISM have rendered me potent for all sorts of tasks and instilled a great deal of confidence in me as a person. Through ISM I bagged an internship in my dream company - Wizcraft and an opportunity as a Media lecturer in a top-ranked school in Mumbai. Natasha Ma'am has become my inspiration in life.

Having completed my graduation, my indecisive mind was on the horns of a dilemma about my career. From having faced the camera as a child to writing short stories and magazine articles, I had worked out that I was broadly interested in getting a firmer grasp over the craft of storytelling through various mediums yet I couldn't quite arrive at one profession that suited me. I initially gravitated to this PG course for the silliest reason; the Hogwarts-like logo but as I learnt more about it, I discovered the wide range of subjects it covers along with an option to specialise. I felt more optimistic about joining the institute. Little did I know that my decision would mark the watershed moment of my life. ISM to me was a microcosm of human experience through which I realised my true potential. From learning how to lead groups to imbibing the art of putting my observations into words, my refinement and success as a journalist and more importantly as a person, is majorly attributable to my education at ISM. Indian School of Media turned out to be just as magical as Hogwarts.

I was in my TY B.Sc at St. Xavier's College, Mumbai when I realised that events and media interest me more. Bit late to change course no? I thought the same but my instincts said go for it. So one day on the internet while searching for colleges that offer Post Graduation in Event Management, I came across ISM. I read up the details but I wanted to know more so I decided to call them up to ask if I can visit and learn more about the courses they were offering. To be honest, I was expecting to be greeted by some old peon or not bothered admin staff, we all have this picture in our head of college admin staff and I did too but it was totally opposite at ISM. I saw these young dynamic people with a huge bright smile on their faces. I met a counselor and signed up for the Post Graduate program and that was the best decision ever. I'll never forget the time I spent at ISM. Interactive lectures by amazing professors who are stalwarts in the Media industry, awesome fun assignments and great exposure especially because you get to organise an in-house event from scratch. That feeling after pulling the entire event together was ecstatic. The staff at ISM is super friendly and always there to help. Natasha Ma'am the Dean such a beautiful soul always pushing you the extra mile, to her I'll be ever so grateful because she has helped me grow in confidence. ISM gave me the first few events of my career. I did IJS and Kala Ghoda etc via ISM and since then I'm a regular at these events. I did my first reality show via ISM i.e India's Got Talent. Now I have the experience of 4 more. In the Event Industry making valuable relationships is as important as your skill and ISM taught me that and here I'm a Happy Freelancer doing some great work. Thank You ISM!

ISM - it's not just a college, in just a few months you become part of a family. It's a combination of the best parts of school and college where the faculty is keen to see you grow and they encourage and enable you at every step of the way and are always motivating you to be and do better, and it's combined with all the fun and freedom of college life! The key focus of the curriculum is on practical knowledge and that is what gave me exposure to incredible events, building my knowledge. Through the institute's placement cell, I was recruited at a reputed media firm, and I know that even if I call Natasha Ma'am to help me today, that call won't go unanswered. So thank you ISM for giving me direction when I needed it the most. Its been over 4 years and the gratefulness still resonates.

It was a wise decision that I chose Indian School Of Media for my Post Graduation. ISM not only imparted quality education but also focused on practical exposure by giving us opportunities to work on Events and Media Activities. I got opportunities to work with some of the best event companies like Percept, George P Johnson, Indian television.com, Nyka events and many more. I was proud to be the Production head for our in-house event where we learnt how to conceptualize, plan and execute an event from scratch. The best part about ISM is that they deliver what they promise as they make sure you get placed via campus placements before your academic year ends so that your future is secure. 100% placement is what I had read on the brochure and they kept their word. I'm currently employed by "Fountainhead Entertainment Pvt Ltd" which is one of the top Event Agencies in India. I am extremely thankful to Natasha Ma'am who guided me throughout the course, imparted knowledge and helped me improve my skills. I will always be thankful to Natasha ma'am for starting such a great college that shaped my career. I'm a proud student of ISM.

My Journey at Indian School Of Media was really great. I made a lot of friends and learned a lot. Through it all, I knew there were so many aspects and departments involved in Media and Event Management. I got a full-time job through ISM at BookMyShow, as a Senior Executive. BookMyShow is not just limited to a ticketing company, we do a lot more like conducting training sessions for the promoters and gaining overall knowledge of an event. With BookMyShow, I have worked on a lot of events since the last year. I have worked on Sunburn Goa, T20 Cricket series, Avengers Station and a lot more and have learnt a lot and will still continue to..! I'm really happy to work here and I'm glad ISM was the start I needed for my successful career. Everyone at ISM was really helpful, especially the faculty who helped us understand Media and Event management in a much broader sense. I'm very thankful to the staff and everyone who helped me get where I am.

It is a pleasure to be associated with ISM and the ladies bandwagon behind the entity. Natasha ma'am, Amruta, Jeshma and other women have managed to give this institute a global recognition. My journey here began as an enthusiast and somebody who was willing to learn new things in and around media. But, my persona today has a new dimension, thanks to ISM! Thanks to ISM's campus placements, I starting of as a trainee reporter at a reputed media company and I now proudly adorn the senior reporter chair. Today, I have celebrities on speed dial and I travel the world because of the opportunity I got from ISM. Being an art graduate from JJ Institute of Applied Art made me take freelance projects, because passion! But, ISM gave me the confidence to think of myself as an entrepreneur. ISM and Natasha ma'am's trust moulded me into the confident individual I am. She has been and will be an inspiration, guide and support system to many others like me. Thank you! Glad to be a part of the ISM family
